

Special Preventive Measures for Campus Visits during COVID-19

To safeguard the well-being of the school community and prevent the risk of cross-infection, the following measures are implemented for all visitors to the school:

1. The latest requirements of “Vaccine Pass” applicable to school premises are to be complied.
2. Only the Kimberley Entrance is open for access.
3. At the entrance, all visitors are required to:
 - check body temperature,
 - use the “LeaveHomeSafe” mobile application to scan the QR code displayed, and
 - fill in a health declaration form.

During the pandemic, the school highly appreciates the understanding and cooperation of all past students by observing the above arrangements in case they have **made appointments in advance** to come back for essential affairs such as:

- school documents (e.g. transcript, testimonials) collection,
- public examination certificates collection,
- school initiated duties/services (e.g. talks, tutoring, conducting activities).

It is with regret that the school will not entertain visits for purposes other than those listed above during the pandemic.

Past students are welcome to contact the school office (tel: 2724 2771; email: info@smcc.hk) for further enquiries.
